Hi Sher,

When you get this message just click on continue to the website. I don't know why that certificate error comes up but if you click on "continue to the website" it should take you to Express Link. Let us know if that doesn't work.

Thanks, Libby

[More information](#)

If you arrived at this page by clicking a link, check the website address in the address bar to be sure that it is the address you were expecting.

When going to a website with an address such as <https://example.com>, try adding the 'www' to the address, <https://www.example.com>.

If you choose to ignore this error and continue, do not enter private information into the website.

For more information, see "Certificate Errors" in Internet Explorer Help.

Subject: Access to SEMS

I now have access to SEMS and should be able to start with data entry, whenever you need me to start.
Sher
